FUEL PACKAGES

SHOWTIME!

Fuel all the way down

Fuel all the way down

new clean image

FUEL WAS USED TO...

- ✻ Export/import Pier websites.
- ✻ Re-generate Pharo image from PharoKernel.
- ✻ Export/import packages of code.
- ✻ As a persistency strategy for Pier.
- ✻ Export debuggers and debug in a different image.

OUR CONCLUSION

Excellent performance without special support
from VM and good OO design.

YOUR CONCLUSION

Fuel is a vehicle. It is infrastructure. You can build cool stuff on top of it.

Thanks!
