Getitmade have a stand at this year's faire where we'll be promoting products on getitmade as well as meeting the maker community and introducing some fellow ... read more

NEW PRODUCT - MY CHAIR
Father of two Ian Bates knows what his little girls like, and his

Technology

- *Built in Pharo on Pier 2(3), Magritte Seaside 3.0, JQuery UI*

- *Deployed in Gemstone*

- *Why Pier:*

  - *Content management*

  - *Restful url handling*

  - *User permissioning and management*

  - *Add-ons (blog, twitter, tag-cloud, search)*

  - *Consistent verbs - add, edit, delete*

  - *Consistent way for addons to access the model*

++++ **----**

☑ Great helpful community

☐ Hard working on own

☑ Powerful development environment

☐ Steep learning curve (Smalltalk, Seaside, Magritte, System Admin, Nginx, Gemstone)

☑ No ORM

☐ Limited robust libraries for common web-tasks.

☑ No database tables to maintain

☐ Roll your own deployment

☑ High-quality code base

easy deployment system needed to help adoption
