How to do a successful ESUG Presentation?

Stéphane Ducasse

[|]

Roadmap

- Contents
- Form
- Behavior

Make your problem clear

- People should learn something
- However making presentation is difficult
- This is difficult because communicating is difficult
- But I have a solution.
- I will work on the contents, form, and behavior

Use example then generalize

- Context
- What is the problem
- Why this is a problem?
  - Use example
- Your solution
  - On the example
- Why your solution is cool

Use Large Fonts

- Should be able to be standing and read the slides when put on the floor

One point = one slide

Use Picture

Be Active on Stage

- Move
- Change your voice ton
- Change your voice speed
- Force you to do get eye contact with everybody

S.Ducasse 8

We are all foreigners

- Speak slowly
- Let a chance to people to understand you

The last slide is the most read

- Use it for summarizing your problems and your great solution

- and invite for questions
