GemTalk Systems Acquires GemStone/S Products From VMware

Company to advance the development of enterprise object infrastructure technologies to support Smalltalk applications

BEAVERTON OR, May 2, 2013 — GemTalk Systems today announced it has acquired the VMware GemStone/S platform for developing, deploying and managing mission-critical Smalltalk-based applications. “VMware believes that GemTalk is a great fit for both GemStone/S customers and the Smalltalk community,” said Charles Fan, senior vice president of R&D, Storage and Application Services, VMware. “We are confident that GemStone/S customers will be in good hands with seamless product support and continued technology enhancements.”
